Subject: Nomination of candidate for 3GPP TSG RAN WG3 Chairman

Dear Ms. Kooistra and Mr. Korhonen,

Huawei Technologies is pleased to nominate Dr. Philippe Reininger as candidate for Chairman of 3GPP TSG RAN WG3. Huawei Technologies is an individual member of 3GPP via the CCSA Organisational Partner.

Philippe has received a PhD in Computer Science from Louis Pasteur University (France) and CNET (Orange Labs). He has 15 years experience in the network design for mobile radio systems. After several years spent in the development of optimisation tools for GERAN and UTRAN, Philippe worked as end-to-end UTRAN radio optimisation expert before joining 3GPP TSG RAN WG3 in 2005, where he participated actively in WCDMA and LTE standardisation.

Philippe joined Huawei Technologies in July 2008 to represent the company in 3GPP TSG RAN WG3 as well as in TSG RAN. We believe his solid technical background associated to his long experience in the Wireless industry give him the necessary qualities to effectively carry on the responsibility of 3GPP TSG RAN WG3 Chairman.

Huawei Technologies is fully committed to allocating the necessary resources and support to enable him to accomplish the duties and responsibilities of 3GPP TSG RAN WG3 Chairman or 3GPP TSG RAN WG3 Vice Chairman.

Sincerely Yours, 

Sun Lixin
Director of Wireless Standards Department
Huawei Technologies Co., Ltd.
