*Nomination of candidate for the 3GPP TSG RAN WG4 Chairmen*

Dear Susanna and Issam,

Ericsson is delighted to announce the nomination of Mr. Christopher (Chris) Callender as Chairman of 3GPP TSG RAN WG4. Christopher is representing Ericsson LM, a member of ETSI.

Chris graduated from The University of Edinburgh in 1988 with a B.Sc. (Hons) in Electronics and Physics and in 1991 with a Ph.D. in digital signal processing. In 1991 he started work as a research associate at Loughborough University and in 1994 he joined Nokia to work on physical layer software and system design. He was employed by Nokia until 2010 when he transferred to Renesas Mobile and from October 2013 he has been employed by Ericsson as a Principal Standardization Researcher.

Since August 2004 Chris has been actively involved in WCDMA/HSPA and LTE standardization in 3GPP TSG RAN WG4. His primary focus in RAN4 has been on the radio resource management (RRM) area but with his wide expertise he has been able to contribute strongly also on RF issues. He has been rapporteur of a large number of work and study items in 3GPP, chairing ad hoc sessions both on RRM and RF. He has acted as a leader making sure that work gets done and that consensus is reached.

If elected, Christopher will be trained to comply with all applicable antitrust/competition laws and regulations while acting in his capacity as TSG Chairman.

Ericsson is fully committed to support Christopher in his tasks as Chairman of 3GPP TSG RAN WG4.

Stockholm, October 13, 2015
