Subject: Nomination and support for the 3GPP SA WG 5 Vice Chairman Candidate

Dear Susanna, dear Dionisio,

Deutsche Telekom AG is pleased to nominate Mr. Istvan Aba for the position as Vice Chairman of 3GPP TSG SA Working Group 5. Deutsche Telekom AG is an individual member of 3GPP via the ETSI Organisational Partner.

Istvan received a Diploma in Computer Science and Mathematics in 1978 and has over 30 years experience in the Information Technology and Telecommunications industries. After more than 15 years in software development he joined Regnecentralen, Denmark in 1986 and worked 6 years on development and testing of early Layered Open Systems. In 1992 he joined T-Mobile Germany as an expert in TMN interface specification and testing. Since 1997 he has been responsible for Provisioning and Charging Integration of T-Mobile affiliates. In 1998 he joined max.mobil Austria as Architect of Provisioning and Charging Integration specifically for the upcoming data and roaming services. In the course of T-Mobile integration he has been active in the development of international products. Since 2002 he has been involved in the organisation of T-Mobile International Standardization. Istvan has more than 20 years experience in Telecom Management on vendor as well as operator side, and has been working for Deutsche Telekom, T-Mobile and its predecessor companies since 1992.

He began his participation in SA5 in November 2002 and has been chairman of SA5 SWG-A for two years. Since 2007 he has been Vice Chairman of SA5. He has been active on and taking the position as Rapporteur for Subscription Management (SuM) and Common Profile Store (CPS) in SA5. His experience in SA5 combined with his broad knowledge of all aspects covered by SA5, OAM&P, Services Operations Management and Charging give him the necessary qualities to effectively carry out this vice chairman responsibility in 3GPP SA5.

If elected, Istvan will provide full support for the chairman and will commit to ensure to provide fair and correct accomplishment of his duty. Deutsche Telekom will provide Istvan with all the support he needs in order to perform the role effectively.

Sincerely,

Johannes Achter
Vice President
