

3GPP TSG RAN Rel-19 workshop
Taipei, June 15 - 16, 2023
Agenda Item: 4

RWS-230095

Consideration on Rel-19 Ambient IoT

New H3C Technologies Co., Limited

www.h3c.com 

Consideration on Rel-19 Ambient IoT(1/2)

□ Motivation

- Ambient IoT is studied/evaluated in Rel-18 RAN Level.(Refer to TR 38.848)
- A following-up WI is naturally expected to enable Ambient IoT feature in Rel-19 if SI in Rel18 can be finalized on time.

Consideration on Rel-19 Ambient IoT(2/2)

□ Proposal

- Given limited TUs in Rel-19, RAN1 can lead this WI on enable Ambient IoT feature with limited use case and minimized spec impact in Rel-19.

A top-down view of a wooden table where several people's hands are stacked in a circle, symbolizing teamwork. On the table are two laptops, a smartphone, a white mug with green liquid, and a white coffee cup with a lid. The background is a dark, blurred office setting.
