CR-Form-v3

CHANGE REQUEST

✎ **25.215** CR **082** ✎ rev **1** ✎ Current version: **3.5.0** ✎

*For **HELP** on using this form, see bottom of this page or look at the pop-up text over the ✎ symbols.*

Proposed change affects: ✎ (U)SIM ☐ ME/UE **X** Radio Access Network **X** Core Network ☐

Title: ✎	Correction of GSM reference
Source: ✎	Panasonic
Work item code: ✎	**Date:** ✎ 28th, February, 2001
Category: ✎ **F**	**Release:** ✎ R99

Use *one* of the following categories:
F (essential correction)
A (corresponds to a correction in an earlier release)
B (Addition of feature),
C (Functional modification of feature)
D (Editorial modification)
Detailed explanations of the above categories can
be found in 3GPP TR 21.900.

Use *one* of the following releases:
2 (GSM Phase 2)
R96 (Release 1996)
R97 (Release 1997)
R98 (Release 1998)
R99 (Release 1999)
REL-4 (Release 4)
REL-5 (Release 5)

Reason for change: ✎	The reference document, GSM 03.03, does not exist in Release 99 specification. The contents are moved to TS 23.003 in Release 99 specification. The basic principle of reference is the same version (release 99) of the specification. To refer TS25.133 is better because this specification describes Initial BSIC identification and BSIC re-confirmation.
Summary of change: ✎	The reference document is changed to TS25.133.
Consequences if not approved: ✎	The document that does not exist in Release 99 is referred.

Clauses affected: ✎	2
Other specs affected: ✎	☐ Other core specifications ✎ ☐ Test specifications ☐ O&M Specifications
Other comments: ✎	

How to create CRs using this form:

Comprehensive information and tips about how to create CRs can be found at: http://www.3gpp.org/3G_Specs/CRs.htm. Below is a brief summary:

1) Fill out the above form. The symbols above marked ✎ contain pop-up help information about the field that they are closest to.

2) Obtain the latest version for the release of the specification to which the change is proposed. Use the MS Word "revision marks" feature (also known as "track changes") when making the changes. All 3GPP specifications can be downloaded from the 3GPP server under ftp://www.3gpp.org/specs/ For the latest version, look for the directory name with the latest date e.g. 2000-09 contains the specifications resulting from the September 2000 TSG meetings.

3) With "track changes" disabled, paste the entire CR form (use CTRL-A to select it) into the specification just in front of the clause containing the first piece of changed text. Delete those parts of the specification which are not relevant to the change request.

2 References

The following documents contain provisions which, through reference in this text, constitute provisions of the present document.

?? References are either specific (identified by date of publication, edition number, version number, etc.) or non-specific.

?? For a specific reference, subsequent revisions do not apply.

?? For a non-specific reference, the latest version applies.
