TSG N2 thanks SMG12 for their Liaison Statement on the UMTS Simultaneous Mode (Tdoc C-99-283 / 3GPP N2-99 006).

In order for TSG N2 to progress the technical specification work on this issue TSG SA2 are requested to provide TSG N2 with either a detailed work item description or instructions regarding which UMTS specifications should be used to obtain the requirements for this feature. Please could TSG SA2 indicate when the requirements for this feature will be regarded as being stable enough to be used for protocol development work.
