**1. Overall Description:**

SA1 thanks SA5 for their LS on Charging and Packet Switched Streaming (PSS) for the Rel-6 work program. SA1 informs SA5 that SA1 is not planning to create a separate WID for PSS in Release 6 but will rely on the WID that is being written in SA4 to cover any work required by SA1 on Service Requirements.

SA1 expects that any charging requirements work for Release 6 PSS will be done in SA1 and in SA5, but will be included as a work task in the SA4-led WID.

**2. Actions:**

**To: SA4**

**ACTION:** SA1 asks SA4 to include charging work by SA1 and SA5 in the WID for Release 6 PSS.

**3. Date of Next SA1 Meeting:**

Meeting	Date	Location	Host
SA1#17	12-16 Aug 2002	Durango, CO USA	SBC Communications
