Attachments:

S1 thanks S2 for the Liaison Statement (S2-040467) on this subject. SA1 recognize the relevance of this issue for the T3 and S3 work.

S1 has a stable requirement on the issue in TS 22.234 clause 5.1.2¹; it asserts the backward compatibility for UICC (and therefore USIM/ISIM) and SIM:

“Access via an I-WLAN shall be possible using earlier releases (than the current release) of the UICC or using a SIM.”

Actions

SA1 would like SA2 to consider the clause 5.1.2 of TS 22.234 and provide guidance to the relevant groups accordingly.

Date of Next SA1 Meetings:

SA1#25	28 Jun - 2 Jul 2004	Montreal, Canada
SA1#26	11 Oct - 15 Oct 2004	Sophia Antipolis, France
