1. Overall Description:

SA1 thanks SA3 for their LS in S1-040904 (S3-040830) and would like to inform that SA1 accepts the described solution for Rel-6. SA1 needs to understand better the meaning of "active" application (e.g. if the GBA may use a different USIM than the one that is active for accessing the network) and furthermore if the GBA may include other applications than USIM and ISIM, in order to understand if there may be service requirements that may impact the described solution.

2. Actions:

No actions required.

3. Date of Next TSG-SA1 Meetings:

SA1#27 17 – 21 January 2005 Cape Town, SA Vodacom
