1. Overall Description:

TSG GERAN would like to thank TSG T WG1 for the LS on the subject of emerging issues on maintenance of Inter RAT test cases. With the current split of work responsibilities, test cases for Inter-RAT Handovers from GERAN to UTRAN are covered in 3GPP TS 51.010 under the responsibility of 3GPP TSG-GERAN WG3. Following the current 3GPP rules, responsibility of approval of GERAN to UTRAN Inter-RAT Handover TTCN test cases developed based on the TS 51.010 specifications lie with the TSG responsible for the test specifications, which currently is GERAN WG3. In order to have a TTCN approval process in place now for GERAN to UTRAN Inter-RAT Handover TTCN test cases, GERAN WG3 is looking at setting up a TTCN CR Approval Process similar to the one followed in T WG1 and would kindly seek TSG T WG1's cooperation to use the current T WG1 TTCN Approval Process.

TSG GERAN may revisit this issue based on the future discussions about split of responsibilities for Inter-RAT prose test cases.

2. Date of Next GERAN Meetings:

GERAN Meeting #18 2 – 6 February 2004 Reykjavik

GERAN Meeting #19 19 - 23 April 2004 USA
