

Work Item Description

Title

USIM application toolkit Conformance Test Specification for Mobile Equipments.

1 3GPP Work Area

Terminals WG3 (USIM)

2 Linked work items

Equivalent in GSM : SIM Application Toolkit Conformance Specification, 3GPP TS 11.10-4 R99.

3 Justification

No such specification existing yet in 3G. Same objectives as the GSM version introduced in 2003.

4 Objective

Provide a testing specification to test USIM Application Toolkit implementation in terminals.

The existing 11.10-4 R99 test specification covers the conformance testing of ME towards the TS 11.14 R96 to R99.

This USAT conformance specification will cover the tests of MEs towards the TS 31.111 R99 to Rel-6.

Practically include the existing tests scripts specified in the 11.10-4 with the addition of the tests of the additional features introduced in the USAT (from R99 to REL-6).

5 Service Aspects

None.

6 MMI-Aspects

None.

7 Charging Aspects

None.

8 Security Aspects

None.

9 Impacts

Affects:	UICC Apps	ME	AN	CN	Others
