Title:	**Specifications not yet under change control, but pertaining to frozen Releases**
Document for:	**decision**

The specifications listed below relate to frozen Releases, but are not yet under change control. In some cases, this is justified by the fact that they are test specs or "error trapping" specs which can be expected to lag some time behind the base functional specs. These "excused" specs are greyed. But for the remainder, the TSGs are urged to examine them with a view to taking one of the following courses of **action**:

   ?? Bring the document under change control; or

   ?? Move the document to a later (not yet frozen) Release (Rel-6); or

   ?? Scrap the document.

The items shown in **bold red** were on the list last time it was presented, six months ago.
