

To: 3GPP TSG-T WG2 Membership

From: Teuvo Järvelä, Head of 3G Standardisation, Nokia Mobile Phones

Re: Nomination for 3GPP TSG-T WG2 Vice-Chairman position

Dear T2 colleagues,

Nokia Corporation would like to nominate Mr. Paul Voskar as a candidate for the vacancy of the Vice-Chairman of 3GPP TSG-T WG2. We believe that Paul will be able to positively contribute to the group and also believe that Paul active participation in the several ETSI and 3GPP standardisation groups will be of great help in this position (e.g., ETSI, ETSI SMG2, 3GPP T, T2, SA and S2). Within Nokia Paul has been in a leading standardisation position, has shown great leadership and proven technical skills.

Nokia is committed to the 3GPP standards process and to maintain the good progress & spirit of the TSG-T and the T2 group, in particular. We shall provide all the necessary support to Paul in this position.

Best Regards,

Teuvo Järvelä
Head of 3G Standardisation,
Nokia Mobile Phones

CV of Paul Voskar

Candidate for Vice Chair of 3GPP TSG-T2

Background

Paul Voskar background is in Cellular Research and development, and Standardisation.

Paul Technical background includes; working as a design engineer on advance Modem design, GSM ASIC design plus GSM base station design specifically, on GSM Transcoder development.

Paul has been working in standardisation for over 10 years within GSM. In particular he has been a delegate to SMG1 and GSM Speech codec group (HR, EFR and AMR). Paul has also worked for ETSI as a secretary for SMG2.

Paul joined Nokia in 1999 and has been working on 3GPP Terminal standardisation for the last 2 years. Within Nokia he is now responsible for co-ordination of all of TSG T activities including T1, T2 and T3.

Paul was also attending S2 as an IGC delegate, involved with defining the 3GPP Work Plan.

Paul Attends all T2 and TSG T meetings as a Nokia main delegate, and has attended nearly all TSG-SA Plenary meetings for past 2 years.
