Title: **Maintenance of Optional Requirements**

Agenda item: 5

Document for:

Decision	**X**
Discussion	
Information	

1 Introduction

In regard to super-set of 3GPP specifications, which have been and will be developed by TSGs, we have to consider how to process optional requirements that may be mandated by participating partners and should be contained within 3GPP specifications. The reasons that we introduce this proposal are as follows;

- Provide Total specification solution

- Ensure the consistency of maintenance for 3GPP specifications

- Allow new and existing members to follow-up on 3GPP specifications

2 Way it Forward

In order to manage existing and future handling for Optional requirement, the OP empowers the secretary of 3GPP and MCC to pursue the following;

- Identify all optional requirements, which is related to 3GPP specification.

- Frame and inform those requirements to all relevant parties.

- Continuously update and maintain further optional requirements.
