Dear Adrian,

**3GPP PCG/OP MEETINGS – OTTAWA, MAY 2<sup>ND</sup> 2003**

I shall unfortunately not be able after all to attend the meetings this week. However, I would appreciate it if you would kindly circulate this letter which contains information about new resources from GSA, which support the promotion of the work of 3GPP on a global basis:

- **Launch of the Global Mobile Dialogue™ Newsletter:** in an industry where messages, facts and fiction are all interwoven there is a need for less ambiguity around the different wireless technologies and services. This monthly newsletter helps to identify what is really happening in the world of GSM using a format of a short, precise fact sheet around key industry areas that are important for executives, decision makers and opinion leaders. Download the April issue from the home page [www.gsacom.com](http://www.gsacom.com) or go direct to [www.gsacom.com/programs/dialogue.php4](http://www.gsacom.com/programs/dialogue.php4)
- **Publication of a new video “The GSM Evolution”** on DVD that captures the spirit of current GSM success and outlines the potential and opportunities for the future evolution using EDGE/WCDMA.

Order a copy from the home page [www.gsacom.com](http://www.gsacom.com) or go direct to [www.gsacom.com/video/](http://www.gsacom.com/video/)

- **Establishment of a new web site** to distribute information about the role of EDGE as part of an operator’s 3G services delivery platform, through the activities of the EDGE Operators’ Forum [www.theedgeoperatorsforum.org](http://www.theedgeoperatorsforum.org)

I wish you all a successful meeting.

Yours sincerely,

ALAN HADDEN  
President, GSA
