1 Introduction

The attached UMTS Forum Report is intended for use by the PCG members only.

"This document is produced by the UMTS Forum, an association of telecommunications operators, manufacturers and regulators as well as IT and media industries interested in broadband mobile multimedia who are active both in Europe and other parts of the world. All members of the Forum have supported the development of this document. However, the views and conclusions expressed in this report do not necessarily represent the views of every member and they are not bound by them. It should be borne in mind that since this report was published technologies and markets have moved on and therefore the contents may no longer be up to date and the UMTS Forum cannot be held responsible for any errors or omissions.
