### 1 Overview

OMA DM thanks 3GPP TSG-CT6 for their response on separation of duties in the creation of management objects and wishes to make some further clarifications.

### 2 Proposal

DM would like to clarify the following items:

- A. Definition of data to be provisioned is outside the realm of DM expertise, and is best done in groups with the appropriate expertise. E.g. 3GPP-CN1 for IMS parameters, or OMA LOC for Location parameters.
- B. DM can provide expertise in the creation of the format for containing the data defined in item A. E.g. the creation of new Management Objects (MO) or Application Characteristics (AC).
- C. DM can also provide expertise in the specifying of transports for the formats defined in item B such that overlapping data will not cause future interoperability problems.

### 3 Requested Action(s)

DM requests careful consideration in the provisioning of 3GPP devices via smartcards, factory provisioning, and OTA. There are possibilities of overlapping data when using multiple transports and formats that can cause interoperability problems.

OMA DM and OMA CP enablers are well proven provisioning enablers, and in order to reduce the complexity of terminal provisioning, DM requests the use of OMA DM and/or OMA CP enablers as the basis for future 3GPP provisioning.

NO REPRESENTATIONS OR WARRANTIES (WHETHER EXPRESS OR IMPLIED) ARE MADE BY THE OPEN MOBILE ALLIANCE OR ANY OPEN MOBILE ALLIANCE MEMBER OR ITS AFFILIATES REGARDING ANY OF THE IPR'S REPRESENTED ON THE "OMA IPR DECLARATIONS" LIST, INCLUDING, BUT NOT LIMITED TO THE ACCURACY, COMPLETENESS, VALIDITY OR RELEVANCE OF THE INFORMATION OR WHETHER OR NOT SUCH RIGHTS ARE ESSENTIAL OR NON-ESSENTIAL.

THE OPEN MOBILE ALLIANCE IS NOT LIABLE FOR AND HEREBY DISCLAIMS ANY DIRECT, INDIRECT, PUNITIVE, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES ARISING OUT OF OR IN CONNECTION WITH THE USE OF DOCUMENTS AND THE INFORMATION CONTAINED IN THE DOCUMENTS.

THIS DOCUMENT IS PROVIDED ON AN "AS IS" "AS AVAILABLE" AND "WITH ALL FAULTS" BASIS.

## 4 Conclusion

DM can provide assistance in the specification of provisioning.

DM thanks 3GPP-CT6 for their continuing work and look forward to further cooperation.
