Title: Internal Structure of TSG-CN WG2

Because of the large workload expected for CN-WG2, we propose to set up the following two subgroups which will meet in parallel in the same venue and on the same dates. Each subgroup may have some interim meetings on an adhoc basis for specific issues. WG2 will appoint a SWG chairman (3GPP Working Procedures, Article 36).-It is assumed that WG2 need two secretaries.

Subgroup A

Subgroup A will deal with mainly:
Basic Call Stage 2;
CAMEL;
Supplementary services.

Subgroup B

Subgroup B will deal with mainly:
MAP;
GTP;
Subscriber data management;
Maintenance of MNP;
Mobility Management Stage 2.

The following issues should be studied jointly between subgroup A and subgroup B on an Adhoc basis.

Network Reference Model;
Interaction between CAMEL and GPRS;
Interworking with fixed network (e.g. ISUP/B-ISUP);
Interworking with access signalling protocols for CM & MM (jointly with CN-WG1).
