

3GPP TSG-N Meeting#2
Fort Lauderdale, USA
1-4 March 1999

Tdoc 3GPP NP-99026

Source : TSG-N WG2 Conviners

Title: **Cooperation between TSG-CN WG2 and Other Groups**

Possible co-operation with other groups is shown in Annex:

We propose that the existing relations between ETSI SMG3 WP'C' and other ETSI groups should be continued as new relations between CN-WG2 and them. For example, CN-WG2 should have joint meetings with ETSI SPS3 to progress the stage 2 & 3 specifications for CAMEL phase 3. This relationship would have to be more formal than the current relationship between SMG3 WP'C' and other ETSI bodies, to reflect the fact that not all Individual Members of 3GPP have the right to attend ETSI meetings.

Relationship between TSG-N WG2 and Other Groups
