Title: Proposed Liaison Statement on MultiCall
To: S, S1
Cc: NSS, N1, and N2
Document for: Decision and Action

Because of the lack of time TSG-N have decided that

- The Multicall is one of the basic services and is not supplementary services. The subscriber controlled procedure that is defined in the current Stage 1 shall be deleted even for future release.

TSG-N would ask S and S1 to modify their Stage 1 document for MultiCall (22.135) to cope with the assumption.
