

3GPP TSG_CN#6
Meeting #6, Nice, France
13th - 15th December 1999

NP-99527

Source: Ericsson, Nokia
Title: LS to T1P1 on transfer of LCS Responsibility
Agenda item: 7.1
Document for: Approval

To: T1P1

Subject: Transfer of LCS Responsibility to 3GPP CN

3GPP TSG-CN has received the liaison from T1P1 expressing the intent to transfer the responsibility for LCS to 3GPP. TSG-CN welcomes this transfer of responsibility as this will simplify the integration and maintenance of LCS within the 3GPP framework.

TSG-CN notes that the intended transfer point is SMG#31. Therefore at TSG-CN#7 (March 13, 2000), TSG-CN will assume responsibility for all CN related CRs and LCS specifications for all GSM and UMTS releases. TSG-CN welcomes the continued contribution of T1P1.5 LCS and it's continued involvement in future LCS work.
