1. Overall Description:

3GPP CN5 thanks T2 for their liaison statement on “coordination of data definitions, identified in GUP development”. CN5 has had the opportunity to review the proposal to have a single group responsible for the coordination of the data definitions, whilst noting that the actual data definition work is the responsibility of the respective working groups.

3GPP CN5 would like to state their support of the afore-mentioned proposal, put forward in T2-020254 (N5-020203). Furthermore, 3GPP CN5 wishes to clarify that CN5 is not specifying the GUP data model, nor planning to actively contribute to that effort.

CN5 will use the GUP data model when the stage 3 specification work for GUP support in OSA can commence (i.e. after the stage 1 and 2 GUP work has sufficiently progressed).

At that time CN5 will take the GUP data model definition as is, and provide an OSA API data type representation of the GUP data model attributes for the OSA stage 3 specification set.

2. Actions:

No action identified.

3. Date of Next CN5 Meetings:

Meeting	Date	Location	Host
CN5#19	8 - 12 Jul 2002	Montreal, CANADA	Parlay/Ericsson
CN5#20 (TBC)	23 - 27 Sep 2002	North America (TBC)	3GPP NA Friends
CN5#21	28 - 31 Oct 2002	Dublin, IRELAND	Parlay
