Open Issues

Architecture Group within TSG-CN:

- Is proposed to form bracket between working groups.
- Role of this proposed group dependent on
  Role of TSG Services/Architecture

Inter-Working Function Subgroup within TSG-CN
   (this new subgroup proposed by SMG4)

- Scope of this subgroup to be agreed/confirmed to be
  MS - CN Interface and CN - other NW interface

SMG3 ? TSG_CN Relation/Transition Basic Principles

UMTS

Telecommunications System

Agreed Principles:

- No Duplication of Work
- No disturbance of ongoing work
  e.g. CAMEL Ph3 (9 meetings scheduled for '99)
- UMTS CN is GSM evolved CN
  Document Basis are GSM Specifications (if existing)
- No big modifications for MAP, CAMEL expected
- UMTS first Specification Release end '99
-
- Hugh portion of SMG3/TSG-CN work beneficial for GSM and UMTS Core Networks

GSM ®

SMG3 ? TSG_CN   Relation/Transition
Basic Principles

UMTS

Telecommunications System

Consequences:

- As much as possible
  SMG3/TSG-CN joint Meetings/joint Activities
  - GSM sessions on demand (topic specific)

- Closely aligned org. structures in SMG3 and TSG-CN

- Document basis is GSM release '98

- Continuation of CAMEL development undisturbed in
  "common environment"

SMG3 ? TSG_CN   Relation/Transition Proposed Work Transfer (2)

Completion of Release '98 with SMG#28

- until SMG#28 agreement on all formalisms etc within TSG-CN
- Start of email based work before SMG#28
-

From SMG#28 onward continuation of work as much as possible in joint/common activity

- SMG3 only activities topic dependent if "GSM only"

-
