

Presentation of Specification to TSG or WG

Presentation to: TSG RAN Meeting #6

Document for presentation: TR R1.04, Version 0.0.3

Presented for: Information

Abstract of document:

This technical report describes examples of channel coding and multiplexing for physical channels of FDD mode and TDD mode.

Changes since last presentation to RAN Meeting #5:

It was just announced by WG1 chairman in RAN plenary #5 that TR R1.04 would be released from WG1 to show examples of channel coding and multiplexing.

Outstanding Issues:

RAN WG1 is expected to produce a WG1 approved version for TSG RAN approval 3/2000.

Contentious Issues:

- Concerning the example for 12.2 kbps data, revision or additional figures may be needed according to discussion results of AMR issues.
- Concerning figures for TDD, revisions may be needed to select appropriate use of slots and codes.
