

Presentation of Specification to TSG or WG

Presentation to: TSG-RAN Meeting #11

Document for presentation: TR 25.938 Version 2.0.0

Presented for: Approval

Abstract of document:

This technical report(TR) captures the results of the work on the work item “Terminal Power Saving Features (Iur/Iub aspects)” in TSG RAN WG3. For Terminal Power Saving Features, RNSAP and NBAP signalling support for gating operation was agreed. Detailed impacts on RNSAP and NBAP are described and the affected specifications and approved CR list are listed.

At the RAN3#19 meeting, this TR was finally approved as version v2.0.0 to be raised to v4.0.0 at RAN#11 meeting.

Changes since last presentation to TSG-RAN Meeting:

Section 6 of the TR was filled to be finalized.

- Section 6.1.2 on Discussions in Leading Group is added
- Section 6.1.4 on Impact to other WGs is removed since it has no contents.

Section 7 of the TR was finalised with agreements on RNSAP/NBAP signalling support for gating .

The following sections were added:

- Section 7.1 on Radio Link Setup/Addition procedure.
- Section 7.2 on Synchronised Radio Link Reconfiguration Preparation procedure.
- Section 7.3 on Uplink Signalling Transfer procedure

Section 8 of the TR was finalised with specification impact and agreed change requests list.

The following sections were added:

- Section 8.1 on Specification impact on 25.423
- Section 8.2 on Specification impact on 25.423
- Section 8.3 on List of CR's

Besides, section 9 of TR on backward compatibility was also filled.

Outstanding Issues:

There are no outstanding issues.

Contentious Issues:

There are no contentious issues.
