ITU-R Ad Hoc has coordinated the preparation of the material for the "Update Submission" as per RP-040511 (see Annex 1). The document was reviewed by RAN WGs, approved by TSG RAN by correspondence and circulated to PCG. The final document (RT-050010) was submitted to the next meeting of ITU-R WP8F (Quebec City, 8-15 June 2005) via Individual Members, as usual. The future activities toward Rev. 6 of M.1457 will proceed as per RP-040511 approved by RAN#26 (see Annex 1).

Following decision of RAN#27, ITU-R Ad Hoc has also coordinated the preparation of a contribution for ITU-R WP8F on current 3GPP activities on IP applications over mobile systems. The document was reviewed by WGs belonging to RAN, CT, and SA; it was approved by TSG RAN, CT, and SA by correspondence and circulated to PCG. Also this document (RT-050016) was submitted to the next meeting of ITU-R WP8F via Individual Members. It was felt appropriate to submit this document for information and action to ITU-R WP8A (22-28 September 2005), as well, since Question 223 is assigned jointly to WP8F and WP8A.
