

Release 6 Submission form

Feature / Item:		FDD Enhanced Uplink - RF Radio Transmission/ Reception, System Performance Requirements and Conformance Testing					
Affects:	UE/MS: X	CN:	UTRAN: X	GERAN:	Compatibility Issues:	Yes:	No: X
Expected Completion Date:		September 2005 – TSG-RAN#29					
Services impacted:		FDD Enhanced Uplink					
Specifications affected:		RAN WG4 Specifications					
Tasks within work which are not complete:				<ul style="list-style-type: none"> - Core requirements - Performance requirements 			
Consequences if not included in Release 6:				Radio requirements for FDD Enhanced Uplink are undefined			
Accepted by TSG#28			for late inclusion in Release 6:				

Abstract of document:

The specification of radio requirements for FDD Enhanced Uplink is an important part of the FDD Enhanced Uplink feature. While the other parts of the FDD Enhanced Uplink work item are closed, there is some work remaining to be done in RAN WG4 on finalising the FDD Enhanced Uplink radio requirements until September 2005.

Contentious Issues:

None.
