

Dear Ms. Koistra, dear RAN delegates,

We would like to express support for our dad's Mr. Balazs Bertenyi's candidature as "RAN chief cook".

Over the last several months of quarantine he cooked numerous meals for the family. During this time we got to see him at home more than ever—for that we are even more grateful than for the meals he cooked.

His cooking is not fancy, but very reliable. He usually sticks to the basics: scrambled eggs, fried sausages, grilled cheese, pasta. But our favourite is his signature breakfast combo: pancakes and French toast.—these are his special skills.

But he is also a fast learner, willing to try new things in the kitchen sometimes makes mom nervous. But he always tries his best.

As his kids we will continue to support him in whatever he tries in the kitchen. Hope you will do, too.

Friendly regards,

Bence Sári
