Cheers, 乾杯 / Kanpai, 건배 / Geonbae, 干杯 / Gānbēi, Salud, Prost, Santé, Skål, Kippis...

Dear Friends,

It is with great pleasure that I submit my candidature for the post-pandemic party “officials” election in the category of “Handling the Bar” (a.k.a. the *bar tender!*), as your most eligible 5G bartender:-)

This is an incredible opportunity for me to serve the 3GPP SA community behind the most visited and sacred place during the social events, and I promise to live up to your expectations! With almost 20 years of standards related travels and visiting 40+ countries, I believe I have acquired the necessary drinking and social skills to keep you entertained and stay decompressed. I’m already researching some of the best “shot” combinations that could potentially get your Tdocs agreed, approved or endorsed! We all know bar is that special place where we come together to make progress, and brainstorm those difficult issues and you can trust me with a custom shot for every WID, SID, CR or DISC paper of yours:-) Besides, I think I can also get the best cook (RAN) and perfect party DJ (CT) in the house to agree with me to offer you the best all-around experience (with the dish and the music you deserve!) while you are at this most awaited post-pandemic 3GPP party. Here we go to the greatest 3GPP party ever....., and let’s make every vote count!

Cheers,

Your friendly bartender!

Suresh Chitturi
