Dear SA,

I would feel honored to handle the bar during the celebration at the first post-pandemic SA face-to-face meeting.

I am convinced that this celebration will be the best 3GPP party ever! If you give me the great honor to win this election, I will send a request to the Meeting Organizer(s) and 3GPP Organizational Partners to provide the largest ever social event funding for free food, drinks and entertainment for all! I also promise to compose a special song for the event and sing it myself, with an accompanying orchestra and dancers if the funding allows. Moreover, I have already started training my arms in the gym and wherever I can to be able to hand out as many beers and drinks as possible. Looking forward to have a lot of fun with all of you at this once-in-a-lifetime party, and dreaming of it makes it worth enduring all our electronic meetings!

Best regards,
Thomas
