

3GPP TSG-RAN WG1#7**Hannover, Germany, 30. August – 03. September 1999****TSGR1#7(99)a91**TSG-RAN WG 4 Meeting #6
Queensferry, Scotland, July 1999

TSGR4#6(99)436

Source: TSG RAN WG4**To: TSG RAN WG1****Cc:****Title: Liaison Statement on link level simulation****For: Information**

TSG RAN WG4 would like to inform TSG RAN WG1 that link level simulations in both the up and down link have started. Simulation assumptions and measurement channels have been defined, and are referenced in R4(99)437, the report from RAN WG4 adhoc group 01.

TSG RAN WG4 encourages members of RAN WG1 to study this report and highlight any difference in the assumptions made when compared with the current WG1 specifications. Given the very short timescales comments should be sent on the RAN WG4 email reflector, with the subject line containing AH01-UL for the uplink and AH01-DL for the downlink. Members of WG1 who are not registered on the RAN WG4 reflector can send comments directly to the adhoc chairman Peter Van de Berg (peter.vandeberg@ecs.ericsson.se) who will circulate them to the group.
