### 1. Introduction

TSG-T requested to identify and submit reply of a definition of all terminal capabilities by the groups working on appropriate system aspects at liaison: T(99)057 “Draft proposed WI for terminal capabilities”, T(99)058 “Meeting report from adhoc meeting on terminal capabilities” and T2(99)282 “LS on Principles for the continued work with Terminal Capabilities”

This document is the LS answer to TSG-T2 on baseline terminal capabilities  
 TSG RAN WG4 awaits guidance from ERC-TG1 via TSG RAN on the frequency reduplex distance
