**Tdoc RAN WG2 396/99**

**Agenda item:** 5

**Source:** Mannesmann Mobilfunk

**Title:** Report of e-mail discussion "Radio Interface for Broadcast/Multicast Services"  
(B/M)

**Document for:** Information

---

The members participating in the e-mail discussion were Ericsson, LG Information and Communications (LGIC) and Mannesmann Mobilfunk (MMO).

It is agreed to discuss and to approve the scope of the report R2.04 first. The given proposals are integrated into Tdoc R2-99397 "Scope of TR R2.04" and will be presented under agenda item 7.4 for discussion and approval. No copied or modified text from other TS and TR will be included anymore.

The other text proposed with the kick-off e-mail by MMO regarding GSM SMS CB service will be reissued as R2-99398 by MMO including the comments of Ericsson.

More contributions regarding broadcast/multicast services are welcomed.
