ETSI SMG2 WPA
Bordeaux, France
20 to 24 September 1999

LIAISON STATEMENT L3 segmentation

From : SMG2 WPA
TO : 3GPP TSG N1
CC : R2, R3

SMG2 WPA thank 3GPP TSG N1 of their liaison statement on L3 segmentation, asking SMG2 WPA if it would be possible to increase the 251 octet limit in 04.06 for Release 99.

Due to the short time, the delegates present at the SMG2 WPA meeting were unable to provide a firm answer to the question.

Then, back at home, investigations will be made, in order to indicate if it is possible to increase the limit, and what may be the maximum value allowed.

The matter will then be revisited at the next SMG2 meeting at ETSI, 22-26 November 1999.
