Title: response to liaison on UTRAN Frame Synchronisation model

To: TSG RAN WG3

R2 would like to thank R3 for the clarification on the frame-synchronisation related relations between SRNC, CRNC, Node-B and UE. The document was treated in the R2 meeting in Malmö 20th to 24th of September.

During the course of the meeting no problems with the model were identified. Therefore R2 works towards aligning the documents within its control to the parameters as identified by R3.
