**Title: Response to LS (R1-001308) on Status of DSCH power control
improvement in soft handover**

Contact: mikko.j.rinne@nokia.com

TSG RAN WG2 thanks WG1 for your liaison to clarify the need for dedicated technical reports from different groups.

RAN WG2 has studied the draft technical report attached to the WG1 liaison and has seen no other impact to its specifications than the addition of the parameter already pointed out by WG1. Therefore as there are no topics proposed to be studied in WG2, WG2 does not intend to start its own TR on this subject. The present text addressing WG2 should thus be kept in the WG1 technical report.
