

3GPP, Joint TSG RAN WG1 (R1) and TSG SA WG4 (S4) meeting *R1-99h84*
Paris, France
November 19, 1999

Source: R1 Chairman

DRAFT AGENDA FOR R1 & S4 joint meeting

1. Approval of the agenda

2. (R1 to S4) Liaison statement on updating the number of AMR speech bits (R1-99H60)

- related liaisons & input documents
- Class 1 bit allocation for AMR mode 6.7 vs 5.9

3. (R1 to S4) Liaison statement on requirements for fast switching between AMR modes (R1-99H67)

- related liaisons & input documents

4. (R1 to S4 and R2) Liaison Statement on transmitting AMR Mode Command bits (R1-99H66)

- related liaisons & input documents
- Response from R2 to the liaison statement

5. (R1 to R2, T2 & S4) Liaison on Physical Layer Service Implementation Capabilities (R1-99H63)

- related liaisons & input documents
- S4 information needs for AMR characterisation testing.

6. Summary of the conclusions.

- Expected actions by different working groups for finalising AMR support for release -99.

Note: List of reference documents from R1 and S4 to be provided separately.
