May 2, 2001

Dear S3 colleagues,

Lucent Technologies, Inc. would like to nominate Mr. Michael Marcovici as a candidate for reelection of the Vice-Chairman of 3GPP S3.

We believe that Michael will be able to positively contribute to the group activities by demonstrating his technical abilities, fairness, and leadership qualities. We also believe that Michael's active participation in a variety of inter-related standardization groups (e.g., 3GPP S3, TIA TR45, T1, AHAG, TR45.2) will be of great help in terms of cross-pollination in this position, as well as aligning security standardization activities internationally.

Lucent Technologies is committed to the 3GPP standards process and to maintaining the good progress and spirit of the S3 group. We shall provide all the necessary support to Michael in this position.

Best Regards,

Francis E. O'Brien, Jr. Ph. D.
