**Title:** Reply LS on authentication test algorithm to be implemented in test USIM

**Source:** TSG SA WG3

**To:** T3, T1

**Contact Person:** [Marc.Blommaert@Siemens.atea.be](mailto:Marc.Blommaert@Siemens.atea.be)

TSG S3 would like to thank TSG T1 and TSG T3 for the liaisons in S3-010193 (T1-010231) and S3-010167 (T3-010324) about the issue of having  $f_1$  equal to  $f_1^*$  .

It was pointed out by both T3 and T1 that any further change on the test algorithm would cause delay in the implementation of the test USIM. In that case, TSG SA3 accepts that no changes to the test algorithm are accepted anymore.
