Due to the sensitive nature of the SA3 Lawful Intercept documents, SA3-LI wishes to limit, from January 1, 2003, the subscriptions to the [ftp.3gpp.org/WG3_Security/TSG3_LI](ftp://ftp.3gpp.org/WG3_Security/TSG3_LI) document area and the LI e-mail list. The subscriptions will include those subscribers that have 3GPP or ETSI logins and passwords (e.g., anonymous access will no longer be accepted) and have been approved by one of the controllers of the list. The existing subscription list will continue into 2003. Documents will be available to those members on the subscription list.

Please advise.
