1. Overall Description:

SA3 thanks CN3 for its LS on early IMS security where SA3 is asked to: "consider the information within N3-040881 and N3-040882 and either to include it within TR 33.878 or inform CN3 that the content of N3-040881, N3-040882 should be added to TS 29.061".

SA3 informs CN3 that the information within N3-040881 has been incorporated into section 6.2.1 of TR 33.878. SA3 also considered the information within N3-040882, but decided that it was not appropriate to include it in TR 33.878. In particular, SA3 would like to clarify to CN3 that it is not the intention of the early IMS security solution that the HSS should be able to send Radius Disconnect Requests to the GGSN. Therefore, it was decided not to include the corresponding specifications about Radius Disconnect Requests from N3-040882.

SA3 has decided that full detail of the early IMS security solution should be contained in a single document, TR 33.878. Therefore, SA3 does not expect that any changes to TS 29.061 are required.

2. Actions:

To CN3 group.

ACTION: SA3 asks CN3 to take note of the above information.

3. Date of Next TSG-SA WG3 Meetings:

TSG-SA WG3 Meeting #37 21-25 February 2005 Sophia Antipolis, France.
