Cyber Security this week

National Cyber
Security Centre

UK
Parliament

ETSI released the test specification [ETSI TS 103 701](#) for the existing [ETSI EN 303 645](#), the world leading consumer IoT security standard.

- Basic tenets to be enshrined in UK law as the Product Security and Telecommunications Infrastructure Bill PSTI goes before Parliament this session.
- Upcoming legislation will lay down a compliance baseline, but the real market opportunity lies in driving best practice in an area that is moving closer to the top of the consumer agenda.
- DTG, SafeShark JV providing independent test certification with BSI.

Technical Steering Group

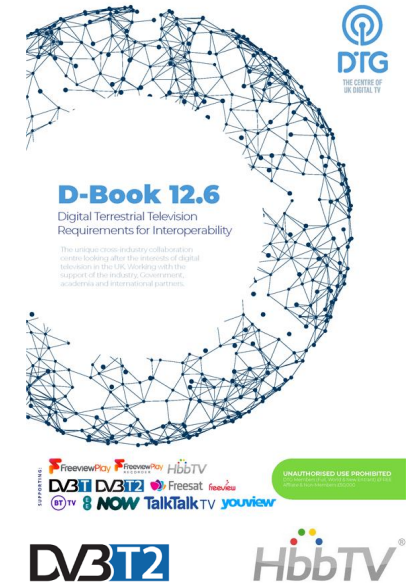

Technology roadmap: challenges, milestones
Leading **future generation platform technology** evaluation, industry personas development

Technical Expert Forums

Next Generation Media Group:
NGM survey of key *challenges*
Object-based media (regulator also driving)

End User Experience Group
Personalisation workshop and White Paper
Developing a HbbTV *Targeted Advertising* App

Distribution Group

Specific Standards Work

HbbTV mandated in D-Book 12.6
DVB-I Test Suite Developed

For note:

Sky Glass: New RDK-based devices launching

DTG-led VISTA 5G Multicast in-stadia demo

International UHDTV Plugfest

Goal: To increase harmonisation and participation with more international partners (as appropriate)

Current partners

- Deutsche TV-Plattform (DTVP)
- Digital TV Group (DTG)
- EBU
- UHD Alliance
- UltraHD Forum
- CTA
- HDMI Forum
- UltraHD Spain interested but not confirmed
- FAVN interested but not confirmed

International UHDTV Plugfest

2020 & 2021 – No Plugfests due to COVID-19

Plans for 2022

- DTVP & DTG Plugfest – single Plugfest in a year. Monitoring the current situation for organising the next Plugfest in London in Q2 of 2022.
- EBU - Interoperability "Plug-fest" for High Dynamic Range Video Production Equipment, Germany in Q1/Q2 of 2022.
