3GPP TSG CN WG1 Meeting #17

Tdoc N1-010910

Puerto Rico, 14th - 18th May 2001

Title: [DRAFT] Liaison Statement on THRESHOLD check at RRC connection establishment

Source: TSG_CN WG1

To: TSG_RAN WG2, TSG-SA WG3

cc: TSG-T WG3

Contact Person:

Name: Francesco Pica

E-mail Address: francesco.pica@eml.ericsson.se

Tel. Number: +447771774995

1. Overall Description:

TSG CN WG1 thank TSG RAN WG2 for their LS *R2-010981* (N1-010766) dated 9th – 13th April 2001 on THRESHOLD check at RRC connection establishment

CN1 would like to confirm that the RAN2 assumptions in the scenario pointed out in the input LS, regarding the handling of Threshold value at RRC connection establishment, are correct from CN1 point of view. Furthermore, CN1 do not see any need to change CN1 specifications. Instead, changes to 33.102 would be needed, so SA3 are kindly asked to present the relevant CRs to their specs.

3. Date of Next CN1 Meetings:

CN1_18 9th – 13th July 2001 Dresden, Germany.

CN1_19 15th – 19th October 2001 U.K.
