LS from TU-T SG4 on the draft Recommendation containing the Security Requirements for the Management Plane

1. Overall Description:

As noted in the attachment, SA5 has been invited to review and comment on a draft Recommendation being progressed by ITU-T SG 4. SA5 participants have agreed to conduct this review at their next meeting (SA5#37bis - see below) and if appropriate provide comments to ITU-T SG4 in time for their meeting in April.

SA5 also agreed that it is appropriate to make SA3 aware of this draft Recommendation and, if SA3 deems it appropriate, to review and provide comments.

2. Actions:

To: SA3

ACTION: If deemed appropriate, to review and provide comments on the attached draft ITU-T Recommendation on the security of the management plane.

3. Date of Next SA5 Meetings:

Q18/4 is preparing a draft Recommendation containing the Security Requirements for the management plane. The original contribution is attached to this document. Some changes were agreed at this meeting and the editor will be preparing a base line incorporating these changes. Most of these changes do not impact the technical contents of the document. We are attaching this document that will be used for preparing the base line text.

Once the editor incorporates the changes, we will communicate that information. We are sending this current version to solicit your comments and input. The plan is to progress this document to AAP in April 2004 meeting of SG 4.

NOTE: THE LATEST EDITOR'S VERSION IS ATTACHED.
