

Source: T Secretary, Adrian ZOICAS

Title: T1 work programme BEFORE meeting T#4, June 1999
(status 20 May 1999)

Agenda item: 6.4

The work programme is attached (HTML and Word files).

The work programme can be consulted at:

<http://www.etsi.org/EWPWeb/>

by selecting in the "QUERY FORM" the

"Technical Body" as

"3GPP T1"

The work programme should be reviewed and updated by WG/SWG.

The updated work programme should ensure a successful overall technical co-ordination of the 3GPP under the responsibility of TSG-S.

ETSI WORK PROGRAM (EWP) **Work Item Reference:** DTR/TSGT-01EMC_U

Deliverable TR	Edition:	Rapporteur: Nagata, Kiyohito
Creation date: 04/05/1999	Lead Body: ETSI	Tel: +81 468 40 3101 Fax: +81 468 40 3733
Standstill:	Cover date:	E-mail: nagata@cet.yrp.nttdocomo.co.jp
Technical body in charge: 3GPP T		Technical editor: Salmeron Figueroa, Lidia
PT:		Database record last update: 10/05/1999

Title: 3rd Generation Mobile Telecommunication;
 Technical Specification Group (TSG) Terminal
 Electromagnetic Compatibility (EMC) for terminal equipment

Scope and field of application:

3GPP EMC standards need to meet global/regional requirements, difficulties in incorporating in 3GPP specifications.
 EMC regulatory requirements for each region/country should be handled as separate annexes of the same deliverable.
 Equipment intended for sell in more than one country/region will then need to be tested against the relevant annexes, and the results submitted to each region/country's regulatory/certification body.
 Inside 3GPP: RAN4 and T1/EMC to proceed independently. T1 to harmonize EMC specifications for global circulation of 3G terminal equipment.
 Outside 3GPP: to liaise with CISPR. EMC requirements above 1 GHz are being developed by CISPR/IEC, with a longer timeframe than 3GPP's. LS from T1/EMC to CISPR should get "green light" from PCG (04/99).
