**1. Overall Description:**

3GPP TSG T would like to inform 3GPP2 TSG-X and 3GPP2 TSG-S that there is to be a new organisation structure within 3GPP.

**Reference: PCG Decision PCG 13/5.** The PCG has approved the creation of a new TSG CT, formed from the merger of TSGs CN and T.

**Reference: PCG Decision PCG13/6:** The PCG has approved the creation of a new TSG RAN, formed from the merger of TSGs RAN and Working Group T1.

These Organizational changes will come into effect following TSGs#27 (March 2005).

The changes affect TSG T, and its sub-working groups (WG1, WG2 and WG3), plus RAN and CN.

The following is provided for information, due to the close connection of the MMS work in both 3GPP (TSG T WG2) and 3GPP2 (TSG-X, TSG-S) organisations.

The Status of 3GPP TSG T, WG1, WG2 and WG3

3GPP TSG T  
TSG T will be merged with CN, and re-named, CT.

3GPP TSG T WG1 (Mobile Terminal Conformance Testing)  
TWG1 will move in the RAN group, and still be named TWG1.  
The work of this group will continue as normal.

3GPP TSG T WG2 (Mobile Terminal Services & Capabilities)  
TWG2 work on MMS Rel 6 has almost been completed.  
TWG2 has no Rel 7 work items, and has no current plans to work on any new Rel 7 work items.  
T2 will not continue in its present form.  
TWG2 may revert into a 'maintenance mode' after March 2005.  
TWG2 may in general communicate via email, and only meet as a group, if required.

TWG2 will become a new sub-working group under CT, and still be named TWG2.

3GPP WG3 (Smart Card Application Aspects)

TWG3 sub-working group will become a new sub-working group under CT, and still be named TWG3.  
The work of this group will continue as normal.

**2. Actions:**

**To: 3GPP2 TSG -X, TSG-S groups.**

**ACTION: For Information**

**3. Date of next TSG-T Meetings:**

<b>T#27</b>	9ñ11 Mar 2005	Tokyo, Japan
<b>T#28</b>	1ñ3 Jun 2005	Quebec, Canada
