1. Overall Description:

The following is provided for information, due to the close connection of the MMS work in both 3GPP (TSG T WG2) and 3GPP2 (TSG-X, TSG-S, TSG-C).

WG2 work on MMS Rel 6 has been completed.

WG2 has no approved Rel 7 work items descriptions (WID), and furthermore, WG2 is unaware of any intention for delegates to bring any Rel 7 contributions into 3GPP on MMS.

WG2 may revert into a 'maintenance mode' after March 2005 and try to execute as many of its responsibility via email, and only meet on an 'as required' basis.

2. Actions:

To: 3GPP2 TSG-X, 3GPP2 TSG-S, 3GPP2 TSG-C, OMA MWG, OMA MWG -MMSG.

ACTION: For Information
