Frederic Lejay
New Platform R&D Program Director
Sierra Wireless

Dear Susanna,
Dear Ingbert,

Sierra Wireless Company, Member of ETSI, is proud to nominate his consultant Mr Remi Lascoux as candidate for the upcoming election of the 3GPP TSG GERAN3new chairmanship.

Remi has been actively contributing over the past years to the GERAN WG3 evolution, and is also Sierra Wireless' representative to other test related forums such as the GCF CAG or SG. In addition, Remi has always maintained an operational role in Sierra Wireless' terminal testing activities.

We are therefore convinced that Remi would successfully lead the 3GPP TSG GERAN3new activities and positively contribute to the group outcomes.

Sierra Wireless will provide all the necessary support to Remi, if elected, to ensure he can efficiently perform this role.

Sincerely,

Frederic Lejay
