*Nomination of candidate for the 3GPP TSG RAN WG2 Chairman*

Dear Susanna and Joern,

Ericsson is delighted to announce the nomination of Mr. Henning Wiemann as candidate for the Chairmanship of 3GPP TSG RAN WG2. Henning is representing Telefon AB LM Ericsson, a member of ETSI.

Henning is the current chairman of 3GPP TSG RAN WG2 and has as such acted in a balanced and independent way in order to progress the work in the group in the best possible way.

Henning joined the Wireless Access Networks branch of Ericsson Research in 2000 after receiving his diploma degree in electrical engineering from the University of Technology in Aachen, Germany.

At Ericsson Henning has had a leading role in LTE and HSPA link layer protocol design. He has a strong expertise in scheduling and quality of service, and is generally a thought leader in layer two concept development.

Since 2009 Henning is participating in 3GPP RAN2. With his strong background both in LTE and HSPA he has from the beginning been a leading delegate in the Ericsson RAN2 team. In 2010 he was acting head of the Ericsson RAN2 delegation, and in 2011 he was elected chairman in RAN WG2.

Ericsson is fully committed to support Henning in his tasks as Chairman of 3GPP TSG RAN WG2.
