Martin graduated 1980 from Uppsala Tekniska Högskola (Sweden) with a Master of Science in engineering physics, and has been working for Ericsson in Sweden since 1980. From 1980 to 1995 he mainly worked with software design and requirements for MD110 (PBX), seven years as manager for a design group.

Martin started to work with QSIG standardization in ECMA TC32-TG14 in 1990, and acted as chairman for ECMA TC32-TG14 between 1995 and 1999.

Martin participated in QSIG standardization work also in ISO/IEC SC6/WG6 between 1996 and 1999. He was editor for some of the QSIG Mobility Standards and occasionally chaired signaling SWG meetings.

Since December 1999, Martin has been actively involved in WCDMA/HSPA and LTE standardization in 3GPP TSG RAN WG3 and 3GPP TSG RAN. He served as chairman for 3GPP TSG RAN WG3 between March 2001 and March 2003. Since August 2009 Martin is serving as vice chair of 3GPP TSG RAN WG3.

If elected, Martin will be trained to comply with all applicable antitrust/competition laws and regulations while acting in his capacity as TSG Vice Chairman.
